The Directors and management remain focussed on providing support to these communities via alternate operational models, including the development of regional hubs, whilst complying with the government pandemic response and community expectations on safe delivery of operations. Long Term Objectives

Expand the provision of services to people in underserviced communities in WA focussing on the distribution of pre-loved sports equipment and fitness and health promotion programs. Reduce the incidence of lifestyle related illness through early intervention education sessions focussing on health and hygiene messaging to youth. Notes to the Financial Statements 31 December 2021

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The directors have prepared the financial statements on the basis that the company is a non-reporting entity because there are no users who are dependent on its general purpose financial statements. These financial statements are therefore special purpose financial statements that have been prepared in order to meet the requirements of the *Australian Charities and Not-for-profits Commission Act 2012* and the *Charitable Collections Act 1946*.

The financial statements have been prepared in accordance with the mandatory Australian Accounting Standards applicable to entities reporting under the *Australian Charities and Not-for-profits Commission Regulation 2013* and the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes. The report has been prepared in accordance with the following Australian Accounting Standards:

- · AASB 101 Presentation of Financial Statements
- · AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors
- · AASB 107 Statement of Cash Flows
- · AASB 110 Events after the End of the Reporting Period
- · AASB 1048 Interpretation and Application of Standards
- · AASB 1054 Australian Additional Disclosures.

The report has been prepared in accordance with the following accounting standards:

(b) Changes in accounting policies

New and revised standards that are effective for these financial statements

There were no new and revised standards that became effective to annual period beginning on 1 January 2021.

(c) Revenue

The Company has continued to apply AASB 15 *Revenue from Contracts with Customers* and AASB 1058 *Income of Not-for-Profit Entities* with a date of initial application of 1 January 2019.

Grants

Grant revenue is recognised in profit or loss when the company satisfies the performance obligations stated within the funding agreements.

If conditions are attached to the grant which must be satisfied before the company is eligible to retain the contribution, the grant will be recognised in the statement of financial position as a liability until those conditions are satisfied.

Donations

Donations are recognised when the right to receive has been established. If the donation is a result of a contract with a customer with enforceable rights, and obligations that are considered sufficiently specific, revenue would be recognised when the underlying performance obligations have been satisfied.

Interest income

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Notes to the Financial Statements 31 December 2021

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Volunteer services

Volunteer service are services received by an entity from individuals or other entities without charge or for consideration significantly less than the fair value of those services.

The Company only recognises volunteer services where the fair value of those services can be reliably estimated, and where this is the case the economic benefits of volunteer services will be consumed as the services are acquired, and will be expensed immediately.

COVID-19 Assistance Grants

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate. This includes Jobkeeper and Cash Boost income received due to COVID-19 during the year.

(d) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

(e) Contract Liabilities

Contract liabilities represent the company's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the company recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the company has transferred the goods or services to the customer.

(f) Income tax

No provision for income tax has been raised, as the company is exempt from income tax under Div 50 of the *Income Tax Assessment Act 1997*.

(g) Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(h) Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method.
